

RECOVER RX (3-18-18)

RX FOLIAR FORMULATION WITH SALICYLIC ACID AND A UNIQUE BLEND OF PHOSPHORUS SOURCES

- Contains 1/2 lb. Salicylic Acid in Every Gal.
- Boosts The Plant's Natural Defenses
- Helps Bring Plants out of Stress & Decline

GUARANTEED ANALYSIS:

Total Nitrogen(N)3%
 Available Phosphoric Acid (P₃O₅)18%
 Water Soluble Potash (K₂O)18%
 Weight Per Gallon11.8
 pH7

Derived from: Urea, polyammonium phosphate, phosphoric acid, potassium hydroxide, monopotassium phosphate.

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS

Salicylic Acid 0.5 %

Derived From : Salicylic Acid

PRODUCT DESCRIPTION:

Recover RX 3-18-18 is a highly soluble foliar, low salt index formulation developed to supplement standard soil fertility practice. It also provides a full 1/2 lb. of Salicylic Acid (SA) in every gallon. SA is in a 100% soluble, available form for immediate plant uptake. Recover RX is designed to be used in concert with soil and tissue tests and professional recommendations to manage the nutrient levels and nutrient balance.

All Greenhouse, Field Crops or Direct Seeded Crops: Recover RX can be used on all greenhouse crops as both a foliar and soil application from time of seeding as a nutritional. The P/K ratio will help improve rooting, speed up early growth and strengthen young plants. On light textured or sandy soils (CEC 20 or below) use 1 to 2 gallons per acre. Do not apply to soils with inadequate moisture for germination unless seeds will be irrigated. Warning: Application to soils with inadequate moisture may result in germination problems.

Early Applications for Crops: Applications of Recover RX early in the plant's life can encourage earlier development, increased growth, vigor and resistance to environmental and abiotic stress. Recover RX may effectively be applied at the first to second true leaf stage as a directed spray to the small plant. When spraying young plants, use ground application equipment and use "sprayed acres" to determine amounts of spray to be applied.

Crop Treatment Recommendations: All recommendations are based on broadcast spray application. When band or directed sprays are used, calculate the rate for the sprayed

CAUTION: Keep out of reach of children. In case of contact with eyes, flush immediately with copious amounts of water. Contact a physician. Do not take internally.

- Increase Fruit Set and Fruit Size
- Helps Plant Rejuvenate from Damage
- Important for Plant Growth & Development

acre only. For most field and horticultural crops the early season applications are directed sprays. For treatment of individual trees or vines, divide per acre by number of trees or vines per acre. Do add, as minimum, equal amounts of water.

Foliar Spray Recommendations		
Application	Rate	Frequency / Notes
Outside Nursery & Tree Farm, Field Grown Applications	Foliar Spray: 2.5 pint per 100 gallons water or 2 pints per acre (295 ml per 100 L water)	Repeat the application every 30 days or as needed. Apply after transplanting
	Continuous Feed: 6 oz per 100 gallons of water (45 ml per 100 L water)	
	Soil Application: 3-4 pints per 100 gallons water (375-500 ml per 100 gallons water)	
Greenhouse Foliar Spray Only	Transplanting: Mix 3 oz in 2.5 gallons of water (88 ml in 10 L water)	Soak plug tray or foliar spray after transplanting
	Propagation: 1 oz in 2.5 gallons of water (30 ml in 10 L water)	Apply at 2nd leaf stage, and then every 10-14 day intervals
	Maintenance: .3 - 1 ounce in 2.5 gallons of water (9-30 ml in 10 L water)	Apply at 10-14 day intervals to supplement nutrient requirements
Field Crops	1-3 gallons per acre banded (9-28 L per hectare)	Apply at time of seeding. Do not apply directly on seed. Repeat as needed.

Condition of Sale and Warranty: Growth Products, Ltd. warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. Handling, storage and use of the product by Buyer or User are beyond the control of Growth Products, Ltd. and Seller. Risks such as crop injury or other unintended consequences resulting from, but not limited to, weather or soil conditions, presence of other materials, disease, pests, drift to other crops or property, or failure to follow label directions will be assumed by Buyer or User. IN NO CASE WILL GROWTH PRODUCTS, LTD. OR SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.
