

NURSERY FOLIAR SPRAY PROGRAM

FOR CONTAINER & FIELD GROWN CROPS

Growth Products Nursery Foliar Program is designed to complement your soil fertility program in containers and in the field. The products are designed for foliar nutrient uptake that not only provides food and nutrient balance for the plant, but stimulates the plant to defend itself with Induced Systemic Resistance. Plant health will help minimize additional pesticide applications. When shifting plants into larger containers use the Cuttings/Plugs/Transplant/Sizing Up program at www.GrowthProducts.com.

Application	Product Choices	Rate Per Acre/ 100 Gal	Comments
For The Control of Diseases Such as Apple Scab and Hole Shot	Essential Plus 1-0-1	2 pints	<ul style="list-style-type: none"> Stimulates Fertilizer & Micronutrient Uptake Contains a Natural Sticker / Spreader
	Companion® Biological Fungicide	2 pints	<ul style="list-style-type: none"> For Prevention, Control and Suppression of Root and Foliar Diseases Activates the Plant's Defense/Immune System (Induced Systemic Resistance [ISR])
	"TKO" Phosphite 0-29-26	2 pints	<ul style="list-style-type: none"> Quickly Absorbed by Leaves, Roots & Branches Growth-Stimulating Effects Neutral pH
	Micrel Total5-0-0	1 pint	<ul style="list-style-type: none"> Improves Color Foliar and Root Absorbed An excellent source of 8 Chelated Micro-Nutrients
General Plant Health and Diseases Prevention	Essential Plus 1-0-1	2 pints	<ul style="list-style-type: none"> Stimulates Fertilizer & Micronutrient Uptake Contains a Natural Sticker / Spreader
	Companion® Biological Fungicide	2 pints	<ul style="list-style-type: none"> For Prevention, Control and Suppression of Root and Foliar Diseases Activates the Plant's Defense/Immune System (Induced Systemic Resistance [ISR])
	Recover Rx 3-18-18	4 pints	<ul style="list-style-type: none"> Helps Plant Rejuvenate from Damage
	Micrel Total 5-0-0	1 pint	<ul style="list-style-type: none"> Improves Color Foliar and Root Absorbed An excellent source of 8 Chelated Micro-Nutrients
Evergreens, Container and Field Grown Plants	Essential Plus 1-0-1	3 pints	<ul style="list-style-type: none"> Stimulates Fertilizer & Micronutrient Uptake Contains a Natural Sticker / Spreader
	Companion® Biological Fungicide	2 pints	<ul style="list-style-type: none"> For Prevention, Control and Suppression of Root and Foliar Diseases Activates the Plant's Defense/Immune System (Induced Systemic Resistance [ISR])
	Iron Max AC 6% 15-0-0	1-2 pints	<ul style="list-style-type: none"> Promotes Rapid Green-Up Compatible with Technical Materials Great source of Chelated Fe and Mn with Sulfur
Hydrangeas, Small Fruits, and Fruit Trees	Essential Plus 1-0-1	2 pints	<ul style="list-style-type: none"> Stimulates Fertilizer & Micronutrient Uptake Contains a Natural Sticker / Spreader
	Companion® Biological Fungicide	2 pints	<ul style="list-style-type: none"> For Prevention, Control and Suppression of Root and Foliar Diseases Activates the Plant's Defense/Immune System (Induced Systemic Resistance [ISR])
	"TKO" Phosphite 0-29-26	2 pints	<ul style="list-style-type: none"> Quickly Absorbed by Leaves, Roots & Branches Growth-Stimulating Effects Neutral pH
	MicroTech AG	1-2 pints	<ul style="list-style-type: none"> A Natural Source of Humic Acid Contains Nitrogen for Increased Minor Uptake Excellent source of Chelated Mn, Zn, Fe and B

Apply every 14 to 21 days for ultimate plant health as preventative sprays.

Products may be used with contact fungicides and insecticides.

Always do a jar test for compatibility. Do not tank mix copper fungicides with Companion.
