

*“Paint Your Fairways”*

## GROWTH REGULATOR PROGRAM

~Make the most of your Growth Regulator application~  
 ~Compatible with all types of PGR's~

Include 1 gallon of Nitro-30® along with 2 quarts of X-Xtra Iron per acre in your spray tank along with Primo®, or any plant growth regulator.

By adding only \$23.10 per acre of Growth Products fertilizers and micronutrients to your VERY EXPENSIVE Plant Growth Regulator application you will improve the efficiency and beauty of your course by:

- Growth Products Nitro-30 Methylene Nitrogen acts as a sticker/tackafier for the PGR.
- X-Xtra Iron AND Nitro-30 Counteract the yellowing that may occur from PGR application. Adds the green but not the growth.
- Save on labor and gas! Tank mix your PGR and fertilizer for one spray and eliminate the labor of a separate granular application.

### Summer Paint Your Fairways Special Promotion

|                     | Product                           | Rate              | Package Size | Price                       | Price Per Unit | Coverage Per Acre |
