| 5%                | Protein Hydrolysate (from Soy)       |
| 0.15%             | Simple and Complex Sugars            |
| pH @ 20 deg. C    | 9                                    |
| Weight per gal    | 10.58 lbs                            |
| Weight per liter  | 1.27 kg                              |
| pH                | 9                                    |
| 1 gallon contains | 1.9 lbs nitrogen                     |

**PRODUCT DESCRIPTION:**

Pro-Formance Ultra is foliar fertilizer specially formulated for high maintenance greens. This premium product gives the superintendent a product that foliar feeds eight important nutrients. Pro-Formance Ultra also contains "organic enhancers" that increase nutrient absorption into the leaf tissue. It contains our exclusive

**CAUTION:** Keep out of reach of children. In case of contact with eyes, flush immediately with copious amounts of water. Contact a physician. Do not take internally.

- COMPLETE ANALYSIS- NINE NUTRIENTS
- WITH ORGANICS TO ENHANCE SOIL CONDITIONS
- ENHANCES MICROBIAL ACTIVITY

organic spreader/ sticker to ensure long lasting adherence to leaf tissue regardless of weather conditions. It contains a natural steroid that enhances cell-wall permeability, which quickens and increases nutrient uptake.

For soil applications, Pro-formance Ultra provides organic food sources for beneficial soil microbes resulting in improved soil conditions.

| Foliar Application Rates: Pro-Formance Ultra   |  |                    |
|--|--|--------------------|
| Grass  | Rate   | Application Timing |
| Cool Season Turf   | 6 oz per 1,000 sq ft<br>(190 ml per 100m <sup>2</sup> )  | Weekly             |
| Warm Season Turf   | 8 oz. per 1,000 sq ft<br>(255 ml per 100m <sup>2</sup> ) | Weekly             |
| Apply with 1/2 to 2 gallons of water per 1,000 sq. ft.<br>(2-6 L per 100m <sup>2</sup> ) |  |                    |

**STORAGE & HANDLING:**

**Storage:** All Growth Products professional liquid fertilizers can be stored in normal warehouse areas. Keep from freezing. Must shake or mix well before use.

**Mixing:** Dilute with sufficient water to ensure adequate soil drench. Put half the water in the tank and add Pro-formance Ultra.

The following mixing procedure should be followed after Pro-formance Ultra has been diluted with appropriate amounts of water. Add products to mix in this order: 1. wettable powders, 2. flowables, 3. water solubles, 4. surfactants, 5. emulsifiable concentrates. Be sure to agitate during each addition. Be sure each product is mixed well before adding the next. Apply all of mixture in same day. Always use a jar test before mixing Pro-formance Ultra with pesticides and fertilizers in your tank.
