PRODUCT DESCRIPTION:

Quick Response (20-3-3) 20% Slow Release Nitrogen is a general purpose turf fertilizer solution made from the highest quality N-P-K sources. Quick Response contains 20% slow release nitrogen (MDU - methylene urea) from Growth Products' exclusive source, Nitro-30 SRN. Both the phosphorus and potassium are soluble and non-chloride sources. This TRUE SOLUTION is ideal for year round application on all varieties of turf grasses and root injection for trees and ornamentals. Quick Response will not clog or cause abrasion to equipment and is compatible with fungicides, herbicides and insecticides and can be mixed and sprayed in one application to save time and labor. Since all Growth Products fertilizers are true solutions, no special agitation is needed.

APPLICATION RECOMMENDATIONS:

Turf Applications: Quick Response 20-3-3 can be applied from early spring throughout the growing season on warm, transition-

STORAGE & HANDLING:

Storage: All Growth Products professional liquid fertilizers can be stored in normal warehouse areas and are not affected by freezing temperatures. Quick Response has a neutral pH and is not corrosive.

Dilution: Quick Response can be diluted by either adding the concentrate to water or the water to concentrate without any detrimental effects on the final mixed product.

Mixing: High quality buffers allow Quick Response to be blended with acidic or alkaline materials without detrimental effects. The following mixing procedures should be used after Quick Response has been diluted with water. Add products to mix in this order: 1. wettable powders, 2. flowables, 3. water solubles, 4. surfactants, 5. emulsifiable concentrates. Be sure to agitate during each addition. Be sure each product is mixed well before adding the next technical material. It is recommended to apply all of mixture in one day.
